

About me:

I came from Buddhist family. My two grand fathers were famous Buddhist monks in my home country. I'm only one son in my home that was why they really want me to become a monk. They want me to delicate to the Buddhist legacy and cultures of all idols. Then I learned Tibetan script to become a monk with my teacher in Buddhist temple for one year in my 7th grade in the middle school in 1994. But I believed in Jesus in 1995 through Eagle TV which was the Mongolian first Christian TV Channel. The channel presented JESUS film on that time. Then I began to search Christian church and the bible until 1997, and found Evangelical Free Church in Mongolia. I was water-baptized on that church in 1997. God called me on that time to serve Him and I attended the bible school called the Union Bible Theological Collage on 1998. I served in my church as a full-time minister for its cell group ministry being an assistant in the beginning and a leader later. I served as a church counsel member, and an assistant pastor for several years since I received Him in my old church until 2003.

Since 2003 our church was became non denominational church first to be a Pentecostal church later. I was ordained to be a pastor in that church and served it until 2010. My wife LHAGVAJAV Battsetseg / Lovega/ was marred to me in the church on 1999, and now we have three children. Our son Uguumur is 13 years old, daughter Ulemjin is 6 years old. Another one is due on Nov 8. Her name is Evelyn. This year, we didn't have a plan to come to America. But, right now we are living in Pleasant Hill North California. It is amazing to see how we can come here. We believe God's divine purpose in all of it. Last June 27, we landed Los Angeles first time in America and our family just spent 4 months living in America.

About Tibet:

God knocked my heart for the Tibetan nation 5 times in my life.

- 1) I came from Buddhist family. I knew them since my childhood.
- 2) My one disciple was called for Tibetan nation when she was graduated from Dallas Theological Seminary. Now she is working in the headquarter of UNDP in

Mongolia. And my close friend pastor's family and his church also are ministering to Tibetans in my home country. They were sharing their hearts with me about the Tibetans and prayed together. They told me several time to serve together for this nation.

3) When we just plant a new church, then exactly on that time we had a chance to have an offering for the Tibetan nation through one family. It was so awesome and miraculous for us to have the special offering whose amount will enable one missionary to live in Tibet for whole half year.

4) In September 2011 when I was in Jerusalem to attend in All Nation Convocation 24/7 prayer, God strongly shook my heart to see the Tibetan nation when I prayed in a Prayer Tower.

5) When we came here in America and met with pastor Otgonbayar of FMCC last summer during the Youth Camp of Mongolian Churches in America. Even though we knew each other long time ago, I believe this is a divine meeting for His Kingdom when we shared our vision and need to serve together, especially Tibetans in America in his area. That is why we are living this area near by Oakland when my family moved from Los Angeles one month's ago. Especially, the bay area has a big Tibetan community with the population of about 10,000. It is the very blessed thing that in Oakland God has already established the First Mongolian Christian Church. Now, we have a partnership plan with the FMCC for the Tibetan ministry. Thanks to the Lord! One day, I watched Dalai Lama crying for his own nation through internet. They need hope, and freedom of HOLY SPIRIT, salvation of JESUS CHRIST, love and life of GOD. I'm hearing GOD's voice when I pray for Tibetans, He said: Let my people go !
